## Professional Summary

---

**DevOps and Cloud Engineering enthusiast** currently pursuing a Bachelor of Engineering in Computer Science and Engineering, with a strong interest in automation, cloud technologies, version control, and deployment practices. Passionate about building practical technical skills through hands-on projects while continuously learning modern DevOps tools and industry best practices. Seeking opportunities that support long-term growth as a DevOps Engineer, Cloud Engineer, or IT professional.

Hands-on experience with **Git, GitHub, Docker, Docker Compose (Basics), Linux (Ubuntu Basics), AWS Cloud (Learning), Python (Basics), HTML, CSS, and JavaScript**. Experienced in managing Git repositories, coordinating project workflows, and supporting module integration as the **Team Lead** for an academic project. Comfortable working in collaborative team environments with a strong focus on problem-solving, adaptability, and continuous improvement.

Committed to expanding expertise in **DevOps, Cloud Computing, CI/CD, Infrastructure Automation, and Deployment** while contributing to real-world projects. Looking for a **DevOps Internship, Cloud Internship, or IT Internship** that provides practical industry experience, encourages continuous learning, and offers opportunities to contribute to software delivery and deployment processes while developing into a skilled DevOps Engineer.

## Education

---

**Bachelor of Engineering (B.E.), Computer Science & Engineering,**

2023 – 2027

*Surya Engineering College*

Currently Pursuing Final Year Student

## Technical Skills

---

### Frontend

HTML, CSS, JavaScript,

### Backend

Python

### Tools

Git, GitHub, Docker, Docker compose AWS (learning)

### Platforms

Linux

### Concepts

CI/CD Integration, Deployment Workflow,  
Responsive Web Development

## Projects

---

**Smart College Management System (Ongoing) – Team Lead**

04/2026 – Present

- Leading overall project planning and team coordination.
- Managing Git/GitHub repositories, version control, and code integration.
- Overseeing development workflow, module integration, and project organization.
- Coordinating testing, debugging, and release management.
- Planning deployment and ensuring project readiness for production.
